

NUTRISON PROTEIN PLUS MULTI FIBRE

A nutritionally complete, high protein, fibre enriched, ready-to-use enteral tube feed.

FEATURES

- **Suitable as a sole source of nutrition[^]**
- **1.28kcal/ml:** to prevent overfeeding calories.
- **63g protein (20%E) per 1000ml:** for people with increased protein requirements e.g. due to metabolic stress.¹
- **Whey-dominant P4 protein blend:** in line with international recommendations on protein quality/ amino acid profile and for gastro-intestinal tolerance benefits.²⁻⁸
- **15g of MF6[#] fibre blend per 1000ml pack:** to help maintain normal bowel function.
- **Fish oils:** to provide Docosahexaenoic acid (DHA) and Eicosapentaenoic acid (EPA).
- **Medium chain triglycerides (MCT):** for easier fat digestion and absorption.⁹⁻¹⁰
- **Enriched with carotenoids:** in line with general health recommendations for their antioxidant properties and positive effect on immune function.¹¹

Indications

For the dietary management of:

- Disease-related malnutrition with moderate stress.
- Conditions with increased protein requirements e.g. postoperative patients, burns, infections and pressure ulcers.

Important Notice

- Not for parenteral use.
- Not suitable for patients requiring a fibre free diet.
- Not suitable for patients with galactosaemia.
- Not suitable for patients with cow's milk protein allergy.
- Not suitable for infants under 1 year of age.
- Use with caution in children aged 1-6 years
- Use with caution in individuals with a seafood allergy.

Directions for Use

- Shake well before use.
- Use at room temperature.
- Handle aseptically to ensure product remains sterile.
- Usage to be determined by a healthcare professional.

Storage

- Store in a cool, dry place.
- Once opened, store in the refrigerator.
- Discard unused content after 24 hours.

Ordering Information

Nutrison Protein Plus Multi Fibre	Product code	Units per carton	Pharmacode
1000ml pack	71836	8	2148986

Ingredients

Nutrison Protein Plus Multi Fibre: water, maltodextrin, vegetable oils (sunflower oil, rapeseed oil, MCT oil (coconut oil, palm kernel oil)), whey protein (from cow's **milk**) cow's **milk** protein caseinate, dietary fibres (inulin, oligofructose, arabic gum, **soy** polysaccharides, cellulose, resistant starch), pea protein, **soy** protein, **fish** oil, potassium citrate, emulsifier (**soy** lecithin), magnesium hydrogen phosphate, calcium carbonate, potassium hydroxide, carotenoids (contains **soy**) (β -carotene, lutein, lycopene), sodium chloride, choline chloride, potassium chloride, sodium L-ascorbate, di potassium hydrogen phosphate, ferrous lactate, zinc sulphate, nicotinamide, retinyl acetate, DL- α tocopheryl acetate, copper gluconate, manganese sulphate, sodium selenite, calcium D-pantothenate, cholecalciferol, chromium chloride, D-biotin, thiamin hydrochloride, pteroylmonoglutamic acid, pyridoxine hydrochloride, riboflavin, potassium iodide, sodium fluoride, sodium molybdate, phytomenadione, cyanocobalamin.

Allergen & Cultural Information

- Contains: cow's milk protein, soy, fish oil.
- Does not contain: wheat, egg, shellfish, nuts*, sesame seeds, lupins.
- No Halal forbidden ingredients.
- No Kosher forbidden ingredients.
- No gluten containing ingredients. No detectable gluten when tested to a sensitivity level of less than 5 parts per million (<5 ppm i.e. <5mg/kg).
- Low lactose (lactose <2g/100g).

#MF6 is a unique, patented blend of six soluble and insoluble fibres (soy polysaccharide, cellulose, resistant starch, gum arabic, oligofructose and inulin) reflecting the proportions of the different fibre types in a healthy diet.

* Peanut (*Arachis hypogaea*), Almond (*Amygdalus communis* L.), Hazelnut (*Corylus avellana*), Walnut (*Juglans regia*), Cashew (*Anacardium occidentale*), Pecan nut (*Carya illinoensis* (Wangenh.) K. Koch), Brazil nut (*Bertholletia excelsa*), Pistachio nut (*Pistacia vera*), Macadamia nut and Queensland nut (*Macadamia ternifolia*) and products thereof.
